

## Reading Comprehension Word Problem: Pizza Party

Read the story below and then answer the questions.

---

Mrs. Smith, her two sons Max and Tiberius and her daughter Becky were just setting the table for dinner when their pizza arrived at the door. Each of them had ordered their very own small pizza and they were starving from a long day of soccer.

Just as they sat to eat, the doorbell rang again and it was Mrs. Smith's friend Dr. David and her 3 daughters. Mrs. Smith had completely forgotten that she had invited them over to watch a movie. They would all have to split the pizza now, but an otherwise quiet evening turned into a fun pizza party!

1. How many people attended the pizza party? \_\_\_\_\_
2. How many moms were at the party? \_\_\_\_\_
3. If they all ate equal amounts of pizza, how much did they each get (fraction amount)? \_\_\_\_\_
4. How many times did the doorbell ring at Mrs. Smith's house?  
\_\_\_\_\_
5. Why was Mrs. Smith's family so hungry? \_\_\_\_\_
6. What were the two families planning to do besides eat pizza?  
\_\_\_\_\_

Name \_\_\_\_\_ Date \_\_\_\_\_
