## Alphabetical Order - Topic: Mathematics

Circle the word that comes first in alphabetical order.

Draw an X through the one that comes last in alphabetical order.

---

- |     |            |             |             |             |           |
|-----|------------|-------------|-------------|-------------|-----------|
| 1)  | cone       | formula     | shape       | subtraction | cube      |
| 2)  | graph      | length      | hexagon     | geometry    | logic     |
| 3)  | pentagon   | chart       | division    | circle      | pi        |
| 4)  | division   | dimension   | rectangle   | diameter    | rhombus   |
| 5)  | angle      | intersect   | area        | algebra     | multiply  |
| 6)  | numerator  | factor      | fraction    | volume      | line      |
| 7)  | average    | denominator | equation    | arithmetic  | width     |
| 8)  | octagon    | cylinder    | triangle    | data        | trapezoid |
| 9)  | random     | radius      | oval        | perimeter   | divisor   |
| 10) | statistics | square      | probability | sphere      | parallel  |
